Dropsync Shift and Rename

Rename and move Dropbox synced files from the "DropsyncFiles" folder to the "Camera Uploads" folder.

Name: Dropsync Shift and Rename

Description: Rename and move Dropbox synced files from the "Dropsyr

Category: Tools

A name, description and category for your Workflow.

Drop workflow icon above.

Bundle Id: e.g. com.alfredapp.example

Created By: Anthony Guinchard

Website: https://github.com/Antho1426

Bundle Ids should be unique. When importing a workflow, Alfred uses the Bundle Id to know which workflow to upgrade.

Dropsync Shift and Rename

Rename and move Dropbox synced files from the "DropsyncFiles" folder to the "Camera Uploads" folder.

KeyIcon

KeyText

Argument

Enter the keyword you would like to use for this input. By default, keywords require arguments. You can alternatively select if an argument should be optional or if no argument is required.

Title

Subtext

Enter the title and subtext you would like to use for this keyword based input. These represent the text you see in Alfred's results when using the keyword.

Drop an icon above.
